

Western Edge SEAFOOD™

The Fish People

Tilapia

Our flagship item is Tilapia, with more than 12,000,000 lbs a year imported into the U.S. to service our current customer base. Our expertise in Tilapia has caused us to experience a tremendous amount of growth in the retail and food service sectors of the seafood industry.

We owe this growth to our commitment to producing premium quality seafood through a strong presence in China, partnerships with our farms and packing facilities, and our strict standards we have put in place. Our farms and packers must adhere to our specifications in terms of workmanship, taste, and quality control.

Our hands on approach has enabled us to be the low cost provider of Premium Tilapia products.

Because Taste Matters.
